Timeliness of Starting an Investigation
Statewide 5/7/20 – 6/7/20

Median time to start investigation: >1 day
Proportion of cases where investigation was initiated within 1 day of the positive-lab-defining case creation date. (Time interval calculated in actual days; cases created the night before counted as next day.)

6,597 cases met 1-day timeframe — 91%
7,235 cases with measure dates
7,609 total cases
