---

*High-risk populations are currently defined by CDC as: persons 65 years of age and older; people of all ages with underlying medical conditions (particularly not well controlled), including people with chronic lung disease or moderate to severe asthma, people who have serious heart conditions, people who are immunocompromised, people with severe obesity, people with diabetes, people with chronic kidney disease undergoing dialysis, and people with liver disease; people who live in a nursing home or long-term care facility.

**For the purposes of the Safe Start Phased Plan, bars are defined as taverns, breweries, wineries and distilleries.

***For the purposes of the Safe Start Phased Plan, maximum occupancy refers to the maximum building occupancy as determined by the fire code.
